

Super quiet portable air purifier unit for up to 50 m² spaces.

Characteristics

- LCD touch screen shows all available functions and their status:
  - Colour-coded air quality level and PM2.5 indicator (µg/m³).
  - RH% and room temperature.
  - Timer (1-8 h).
  - Filter replacement indicator.
  - Screen lock.

- 4 operating modes:
  - MANUAL: 4 speed settings.
  - SMART: Adjusts speed based on air quality.
  - NIGHT: Runs at an exceptionally low speed to reduce noise.
  - TIMER: Programmable from 1-8 hours.

- 3 stage filtration, 99.99% efficiency using 360º drum-type filters:
  1. Fibre pre-filter:
     Filter (F7 class / EN 779). Filters out large-sized particles (PM10).
  2. HEPA anti-microbial filter (H13 Class / EN 18221-1):
     Filters fine particles (PM2.5) like spores, dust, pollen, dust mites, bacteria and viruses.
  3. Active-carbon filter: Adsorbs fumes, odours, vapours, aromatic and volatile organic chemical compounds.

- UV light.
- Remote control.
- DC Brushless motor.
- Automatic switch-off when tipped over.

UV light
that eradicates viruses, bacteria and dust mites.

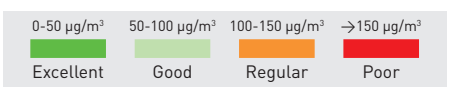

360º Filters - High efficiency
